# BC822

# Network box camera, 2MP, Day/night, H.264/MJPEG, WDR

- √ 1/2.8" Progressive scan CMOS
- ✓ 2 Megapixels @ 60fps
- ✓ 120 dB WDR
- ✓ Quad stream H.264 and MJPEG video
- ✓ Day/Night with IR-cut filter
- ✓ 24 Vac, 24 Vdc, 12 Vdc, 802.3af PoE
- ✓ ONVIF Profile S protocol support

#### **Description**

The BC822 is a full featured 2 megapixel IP box with good low light sensitivity. The camera provides high quality, clear images in any situation.

#### Multistream high definition

The camera has quad-stream capability for simultaneous streaming of H.264/H.264 or H.264/MJPEG. Multiple combinations of resolution and frame rate can be configured to satisfy different live viewing and recording scenarios. 2 Mpixel resolution is available at 60 fps, a full-HD 1080p stream at 60 fps can be combined with a second stream at 30 fps. Each selected resolution-frame rate combination can be freely set to a stream number.

#### ONVIF

Multiple options are available to easily integrate the BC822 to a video management system. In support of open standards, the camera is compliant with the ONVIF Profile S specification.

#### **Image optimalisation**

The BC822 provides automatic day/night functionality with configurable thresholds, for use in low-light situations. Backlight compensation enhances image visibility in difficult lighting situations. The BC822 provides two modes for wide dynamic range. The first mode uses different gain ratios for different illumined areas to bring details in the darker areas of an image without saturation in the brighter.

different illumined areas to bring details in the darker areas of an image without saturation in the brighter parts. The second mode uses a 2 shutter mechanism which applies two different exposure settings to capture both darker and lighter areas with excellent details. The resulting image is the optimal aggregation of both exposures.

The available image optimalisation methods ensure quality pictures at all times.

#### Power source choices

The BC822 can be powered by 12 Vdc, 24 Vdc, 24 Vac, or over the network with 802.3af-compliant PoE sources.

#### **Privacy masks**

Privacy masks cover sections of the image. This feature is often requested for such situations as city centre surveillance and point of sale keypads.

## Technical specifications

| Camera                          |   |
